

Public Safety and Security Committee
Room 3600, Legislative Office Building
Hartford, CT 06106

March 13, 2013

Honorable Members of the Public Safety and Security Committee:

As a concerned citizen, I have been following a variety of broadcast, newsprint and social network reports regarding the currently proposed gun legislation in the State of Connecticut. Admittedly, I side with strict Constitutionalists and believe bearing arms for personal defense is an unalienable, as well as Divine Right. My body is a temple through which the Lord activates Divine Will and it must be protected by the means this mind deems most effective.

Already, in writings and speeches, proponents of the 2nd Amendment have exposed the flaws in proposed legislation. They have focused on numerous aspects such as Constitutionality, enforcement, criminality, economics, mental health, among others. I do not sense a need to repeat what has been said, only a prayer that your duty has not already been done.

I respectfully request that you give due diligence to the matter at hand, for in not doing so you will create a debacle far worse than the ones presently being exposed in Washington. Allow the time necessary for all facts to be witnessed and the full truth to be known. Do not be hasty in your judgment. Please uphold the Oath you have taken and have respect not just for the People of the State of Connecticut, but for the People of the United States of America.

Thank you for your kind consideration.

Respectfully submitted,

Ann Morse
